

002 Single Cylinder Deadlatch

The Australian-designed Lockwood 002 Deadlatch offers market-leading performance and reliability for your home and is available in both Knob and Lever versions.

The 002 Deadlatch features a cut-resistant stainless steel bolt, 11 concealed anchorage points and a door frame strengthener that combine to offer high security protection.

Additional features include a bolt holdback function that allows you to use your door in passage mode.

Features and Specifications

- High security with cut resistant stainless steel bolt, 11 concealed anchorage points and door frame strengthener
- Bolt holdback function activated by external key or internal knob
- Can be keyed alike to other Lockwood door locks

Keying

- Supplied individually keyed with two keys per lock
- 78,000 key combinations
- Key blank KB2015P

Restricted Special Keying

Lockwood locks can be keyed to a number of controlled and/or specially keyed systems. These range from legally protected keys to protect against unauthorised duplication, which can also include specially designed key systems such as master key systems, which allow for different levels of mechanical access control.

Please refer to Lockwood Keying Catalogue or contact your local sales office or customer service for specific information.

Retrofittable

Replace your existing 001 Deadlatch.
