

507 Fire Rated Night Latch

The 507 Nightlatch is a high quality, fire rated stainless steel nightlatch, making it suitable for a range of commercial applications including utility and service cupboards.

Features and Specifications

- Easy to operate with a lever turn to retract the latch or key from outside (not supplied)
- 304 stainless steel latch bolt, lock case and striker plates
- Supplied with striker plates to suit standard open in and open out door installations
- Lock handing can be easily changed in seconds by releasing the handing catch and twisting the bolt
- High quality brushed stainless steel finish with welded joints on lock case and striker
- Supplied in trade pack only

Keying

- Suitable for use with building master key systems
- Standard Lockwood 201 cylinders available for installations not requiring restricted keying

Note: Cylinder sold separately
