

Symmetry® 7107 Double Cylinder Deadbolt

The Symmetry general purpose Deadbolts are standard security products that should be fitted with a Key in Knob or Key in Lever lockset for added safety and security.

Keying

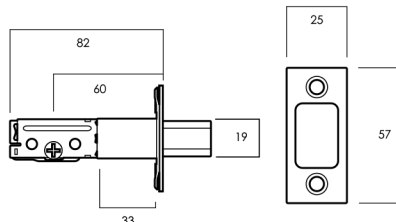

- Supplied individually keyed with two keys per lock
- 78,000 key combinations
- Key blank KB401B5P

Restricted Special Keying

Lockwood locks can be keyed to a number of controlled and/or specially keyed systems. These range from legally protected keys to protect against unauthorised duplication, which can also include specially designed key systems such as master key systems, which allow for different levels of mechanical access control.

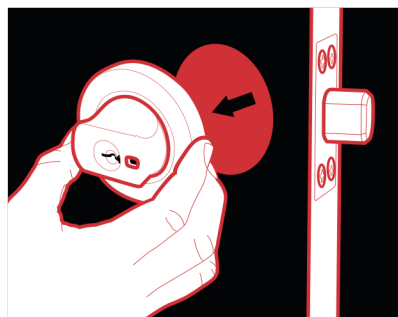

Please refer to Lockwood Keying Catalogue or contact your local sales office or customer service for specific information.
