# Patio Sliding Door Lock

The Lockwood Onyx Patio Sliding Door Lock incorporates advanced security and safety features making this product the ideal choice for sliding patio door applications.

## Style and Function

This range takes design cues from contemporary architectural styling and complements several of Lockwood's most popular levers to provide a harmonious look and feel throughout the home.

The functionality of the range has been enhanced by the intuitive operation of the unique sliding snib and the innovative LockAlert® feature that indicates the lock status at a glance.

## Application

Surface mounted lockset suitable for use with most aluminium and timber sliding doors.

The flexible chassis coupled with innovative design features results in a non-handed product that is extremely easy to install and suitable for new and most retrofit applications.

## Product Range

A wide selection of furniture options are available in the range to suit various sliding door applications. The range includes internal D handles and slim pulls and a variety of external furniture and strike options.

**DualSelect®**  
Turn the key for safety mode. Turn the key further to select secure mode.

**Twin Locking Beaks**  
For added security.

**LockAlert®**  
Interior Indicator shows lock status at a glance.

**Secure Mode**  
Securely locked from both inside and outside. For when nobody is home.

**Door Close Detect (DCD)**  
Anti slam feature protects from accidental damage and ensures door is closed before being latched or locked.

**2 Keys Included**  
Can be keyed alike to other Lockwood door locks.

^ Part number convention is for reference only, not all possible combinations will be available as a pre packed lockset. Some configurations will need to be made up of sub-assemblies. i.e. Two or more line items may be required to make up desired configuration.

# Cavity Sliding Door Locks

Lockwood's sliding door lock range is possibly the most innovative and aesthetically pleasing lock for a cavity sliding door in Australia. Combining elegance and ease of use, the Lockwood Cavity Sliding Door Lock range is ideal for any home décor and security solution.

Not only will the internal bathroom or lounge room sliding door have a contemporary look, but the interconnecting door from the garage to the laundry can be fitted with a key lockable entrance-set for security.

## Features and Specifications

- Fitted flush against the panel of the sliding door for full recess into the door cavity
- Entrance, Privacy, Passage and Passage Latch models available for the complete residential solution

### Retractable door pull

Designed after extensive research, the sliding cavity door lock features an innovative retractable door pull which combines style with functionality.

### Key lockable solution

The key lockable Entrance Set model protects sliding perimeter doors with the added confidence of Australian Standard compliance for AS4145.2-2008: Tested to exceed 30,000 turn cycles withstanding 3 kN of pull force.
