

Optimum Sliding Door Mortice Locks

The Lockwood Optimum Sliding Door Mortice Lock is designed to improve functionality in sliding door applications. Lock features the unique security of a single deadbolt with dual flyout beaks which prevent the door from being lifted.

Features and Specifications

- Anti-lift deadbolt locking
- Anti-slam pin protection prevents accidental damage to the lock bolt
- Durable mechanism and stainless steel faceplate
- 30mm and 40mm backset variants available
- Door thickness: 32mm to 45mm
- Lock Status Indication available when used with Palladium Xtra cylinder escutcheons
- Fixed or adjustable strike options (strikes must be ordered separately)

Product Details

Furniture Options

The Lockwood Aria D handle is recommended for use with Optimum Sliding Door Lock. Palladium Xtra escutcheons are required in order to use the lock status indicator.
