

Inspired by the elegant designs of mid-century Italian architecture, the Como lever offers minimalist sophistication. A tapered front profile is contrasted by a broad top surface that is both functional and tactile.

All Como levers have been successfully fire rated to 2 hours to meet the requirements of the Australian Standard (AS1530.4:2014).

The Como lever can be purchased as a passage, privacy or entrance kit, which includes all components required for your door to function.
