Berlin Whole-of-home Collection

Every home has a signature, and with Iver's whole-of-home offering, discover the perfect expression of your style and apply this seamlessly throughout your home.

Berlin Collection

The Berlin collection pays tribute to the Bauhaus movement with clean lines, precise geometry, and functional minimalism.

Complementing numerous interior styles, the Berlin Collection is particularly striking in contemporary and industrial projects. Popular in Matt Black and Brushed Brass, each piece exemplifies the Bauhaus philosophy of valuing usability over ornamentation.

The Berlin collection features matching door levers, pull handles, a cupboard knob and privacy turn. This range is also available as an Iver kit in Passage, Privacy and Entrance.
