

Application

Widely used in internal residential and commercial applications. To accommodate different building designs, panels can slide to one or both sides.

Panel Specification

Track System:	Quick Run 120		
Hanger	57JNP	58JNP	61JNP
For Individual Panels:			
Max Panel Height	3000mm	3000mm	3000mm
Max Panel Weight	120kg	120kg	120kg
Min Panel Thickness	28mm	32mm	32mm

For ease of operation it is recommended that the panel width should not exceed 75% of panel height.

Timber panels for interior use can be of flush construction or glazed. Timber panels for industrial applications should be framed, ledged and braced. Metal panels should be constructed of box section, channel or angle framing, well braced and clad with flat or corrugated sheets.

Standard Sets and Packs

Sets comprise of top track, hangers, doors stops, nylon guides, timber screws and instructions.
