

## Application

Widely used in lighter commercial and industrial applications.

To accommodate different building designs, panels can slide to one or both sides.

Hinged panel for easy access may be incorporated into a sliding system.

Where panels are fitted externally, a canopy is recommended.

## Panel Specification

<b>Track System:</b>	<b>Single Run 120</b>
For Individual Panels:	
Max Panel Height	3000mm
Max Panel Weight	120kg
Min Panel Thickness	19mm

For ease of operation it is recommended that the panel width should not exceed 75% of panel height.

Timber panels for interior use can be of flush construction or glazed.  
Timber panels for industrial applications should be framed, ledged and braced. Metal panels should be constructed of box section, channel or angle framing, well braced and clad with flat or corrugated sheets.
