HANDLES WITH A STORY TO TELL

Castella has combined its mastery in handle design with the unique timbers of Tasmanian Hydrowood to create the Castella Hydrowood Range.

Castella has enjoyed the opportunity to work with this inspiring product and to use specialty timbers that are without question uniquely Tasmanian. The process of ethically harvesting timber from the depths of Lake Pieman results in timbers that cannot be replicated.

RECLAIMING A LOST PAST

Murchison handles are crafted from timber reclaimed from Lake Pieman on Tasmania's wild west coast, flooded over 30 years ago. The team at Hydrowood discovered, and have now made available, the environmentally friendly Tasmanian timbers previously thought to be lost.

MURCHISON

NEW DESIGN 2022

Designed to celebrate these special timbers, the shape and form of Murchison handles are simple but stunning. Available in Natural Oak and Charred Oak finishes, and 5 lengths.
