

KABA[®]

600 Series Mortice Lock Furniture

Designed for use with contemporary Australian mortice locks and latches

600 Series Mortice Lock Furniture

The Kaba 600 Series features square end solid forged brass door furniture, designed for use with contemporary Australian mortice locks and latches.

Features

Stainless steel drive plate, an integrated precision ground 12mm bush that provides enhanced handle support, and a lever torsion spring to eliminate handle sag.

Fixing

Plates are 11.5mm thick and are designed to fit back to back with concealed fixing to outside plate. Tiebolt M5 fixing screws have a cross-recessed head.

Handing

Plates and knobs are non-handed with levers reversible on site in most cases.

Door Thickness

The Kaba 600 Series Mortice Lock Furniture suits door thickness from

32mm minimum to 50mm maximum.

Thicker doors require extended spindles, turn bars and longer tiebolt fixing screws.

Lever and Knob Design

The Kaba 25 Lever and 30 Lever are available as standard. Other lever designs are available on request.

Standard Finishes

Satin Chrome Plate SCP
Other finishes available on request.

FIRE RATED 

600 Plate with 25 Lever

600 Plate with 30 Lever

600 Plate without Lever

OPTIONAL LEVERS

Kaba has a range of levers available on request to suit architectural design requirements.
