## HFH DOUBLE ACTION HINGES

HFH double action spring hinges are synonymous with high performance hinging products. These hinges have been the backbone of the double action hinge market and are rightly considered amongst the best product within their group. They have been used within the trade for decades and to this day still offer the basic requirements that all tradesmen and end users seek: which is to have a reliable, market tested and accepted product that everyone can rely upon.

Features include:

- Suitable for doors up to 45mm thick
- Load bearing of 40kg per pair
- Maximum door size of 2340mm x 870mm per pair
- Requires no hanging strip
- Available in finishes of chrome plate, satin chrome and brass

NOTE: Each box contains a pair (2) of hinges.
